Tool-Less Blanking Panels

specifications

Unused rack openings shall have blanking panels installed to reduce bypass airflow through open spaces in racks and cabinets. Panels shall be designed of non-metallic material with a snap-in feature that allows easy installation by hand. A latch design will allow for installation in round tapped holes or in square holes with or without cage nuts. Panels shall seal properly between rack units to prevent bypass air. Panels shall be available in 1 Rack Unit (RU) or 2 RU sizes to enable the blanking of multiple rack unit configurations. Panels shall be designed to stack easily to minimize storage space while products are not being used.

technical information

Standards:	19" (482.14mm) width meets CEA-310-E standards				
RoHS compliance:	Yes				
Compatibility:	Solutions available for 0.375" (9.5mm) square hole EIA vertical mounting angles (VMAs) as well as #10 (M5) or #12 (M6) round tapped holes				
Material (color):	Black ABS				

key features and benefits

Non-metallic material with snap-in feature	Installs easily by hand – no screws/tools required; improves productivity	
Latch design Allows for installation in #10 (M5) or #12 (M6) r tapped holes or in square holes with or without allowing installation in multiple applications; elir need to remove cage nuts for select application installer flexibility; lowers total cost of ownership		
Sealing vanes	Seals between rack units to prevent bypass air to improve energy efficiency	
Two sizes	1 RU or 2 RU sizes can blank out multiple rack unit configurations enabling installer to select appropriate sizes for specific applications	
Stacking design	Allows product to stack easily when stored minimizing space while products are not being used; improves storage efficiency	

applications

The tool-less blanking panels are part of the energy-saving airflow management solutions for smart data centers. They are designed to minimize bypass airflow in racks and cabinets while providing a desirable appearance. The tool-less blanking panel has design features

that help to speed installation and is part of the complete range of cooling accessories available from Panduit to help maximize management and control of the physical infrastructure.

Tool-Less Blanking Panels

1 RU x 19" (483mm) width for 3/8" TLBP1S-V square holes:

2 RU x 19" (483mm) width for 3/8"

TLBP2S-V square holes:

1 RU x 19" (483mm)

width for round tapped holes: TLBP1R-V

2 RU x 19" (483mm) width for round

tapped holes: TLBP2R-V
