Nexans ref.: [N11G.P1B020DK](#)

- High speed RJ45 patch cord to run 10GBase-T (IEEE 802.3an)
- High Density support : 48 cords on 1 height unit
- Frequency up to 500MHz, fully complies to Cat 6A channel requirements
- Screened Design for Alien Crosstalk immunity
- Externally certified
- Retrofit Latch Protector available in 8 colours for colour coding

BESCHRIJVING

Application

LANmark-6 10G Cords are developed to support 10 Gigabit Ethernet (IEEE 802.3an).

LANmark-6 10G Cords offer superior performance up to 500MHz and are matched with other LANmark-6 10G components to provide improved data throughput in complex channel configurations. LANmark-6 10G Cords use stranded cable and as such provide maximum system flexibility for the use at Cross Connects and Consolidation points.

LANmark-6 10G Cords feature a robust boot which does not extend outside the RJ45 boundaries to enable High Density Patching with 48 cords in 1 height unit and a Retrofit Latch Protector, which can be used for color coding of different services.

Performance

LANmark-6 10G Cords fully comply and exceed the channel requirements of EIA/TIA-568-C.2 and ISO11801 and enable to achieve high performing 10G channels.

Guarantees

When installed in combination with other LANmark-6 10G components, a 25 years channel warranty can be obtained, covering full 10GBase-T support and full Cat 6A/Class EA compliance.

Usage

- The cords are by design fully Alien Crosstalk compliant, so no special installation rules need to be taken into account for ANEXT and AFEXT compliance.
- 1, 2, 3, 5, 10, 20m are standard lengths available from stock, other lengths are available on demand.
- Orange and Dark Grey are standard colours available from stock, other colours are available on demand.
- Default Plug configuration is a black boot with a preinstalled black latch protector, other combinations available on request.

KARAKTERISTIEKEN

Constructiekenmerken

Kleur	Grijs
Afscherming	ja
Buitenmantel	LSZH

Maatvoeringskenmerken

Nominale buitendiameter	6,0 mm
-------------------------	--------

Gebruikskarakteristieken

Bereik	LANmark-6 10G
Lengte	2 m
Mechanische levensduur bij plaatsing	750
Categorie	Cat. 6
Niet-brandverspreidend	IEC 60332 Part 1
Functie van component	Patchcord
Verpakking	Box of 50 items
Minimale buigradius - geïnstalleerd	24 mm
Minimum Bend Radius - During Installation (under Tension)	48 mm

ELECTRICAL PERFORMANCE LANMARK-6 10G 100M 4 CONNECTOR CHANNEL
