Nexans ref.: [N890.147](#)

- Medium size gland
- Suitable for cables 6-12mm
- To fit minimum aperture diameter 20mm

BESCHRIJVING

The cable gland allows to fix cables with a diameter between 6mm and 12mm.

The cable gland fits in patch panels with a slot size of 20mm or PG13.5.

Typically there are 8 of those slots available in LANmark-OF Patch Panels.
