

CableSafe Safetyhook

Avoid accidents: keep cables and hoses out of harms way. That's safety! Multinationals prescribe the use of CableSafe to employees and contractors to adhere to the highest safety practices.

Slip trips and falls

25% of all workplace accidents

95% of major slips & trips cause broken bones

15.184 accidents; **35** deaths (UK)

Source a) www.hse.gov.uk – HSENI annual report b) UK 2012/2013 Dr. M. Thomas Health and Safety Bolton

CableSafe® simply contributes to a safe workplace. It is easy to suspend cables, wires and hoses because of the hooks' simple S-shape. A clean workfloor reduces the number of tripping accidents. CableSafe hooks are applied in maintenance, turnaround, construction and industrial works as it reduces the highest accident rate: slips, trips and falls.

Advantages

Easy to use, cables and wires are cleared quickly and easily

Cables, wires and paintwork are better protected

Does not conduct electricity or heat

Proven technology: over 20 years of use in the industry

A tidy work floor is good practice for the internal safety culture

Reduction of accidents caused by slips, trips and falls
