

SBR064 – 2 module battery

The single-phase market requests a smaller, cheaper battery solution.
The new SBR046 consists of 2 battery modules and 1 empty module and 1 accessory box.
The Empty module is used to support the top cover and has no cell inside.

SBR064 – Compatibility

Only compatible with SHRS single phase, not with SHRT three phase.
Can only be sold in single phase market.

SBR064 – Layout

The empty module is shipped with a small label that is optional to install.
It is recommended (but not mandatory) to install the empty module on the top.

SBR064 – Logistics

Combo solution AST04547

- 1x Accessory Box V114 AST04689
- 1x SMR0 Empty Module ASA00613
